

PUNIT LOHANI

Cell: +1 (973)489-8480 | Email: punit_lohani@yahoo.com

OBJECTIVE

Computer Science Graduate Student with 7 years of experience in front-end web development with proven JavaScript, React and redux development and programming abilities

SKILLS AND TECHNOLOGIES

Typescript, React.js, React Hooks, Styled Components, React ecosystem, React Native, ReactJS, Redux, GraphQL, Apollo Client, JavaScript, JSX, TSX, CSS-in-JS, HTML, CSS, LESS, AG-grid, Bootstrap, JSON, JQuery, NodeJs, Lodash, Jest, React Testing Library, Enzyme, Unit testing, Jasmine, Chai, Sinon, Protractor, Web Development, BackboneJs, Git, GitHub, Bitbucket, Sourcetree, Svn, ES6, Agile, Scrum, JIRA, MySQL, SQLPlus, Chrome Developer tools, React dev tools, Redux DevTools, JAWS, VSCode, Postman, Jenkins, HELM

EXPERIENCE

Platform Engineer

ADP

135 W 18th St, 4th Floor, New York, NY 10011

03/06/2023 - present

- Own a complex React application and a handful of backend node microservices that communicate with the rest of the platform
- Collaborate with internal design teams to build components with an engaging user experience.
- Maintain an extensive internal component library via a thorough set of automated end-to-end tests.
- Build high visibility React components and pages.
- Utilize HELM charts for managing various environments by using configurations stored in different YAML files.

Software Engineer

Seismic Software Inc.

101 Greenwich St, 16th Floor, New York, NY 10006

11/18/2019 - 03/03/2023

- Engineered accessibility-compliant web components for “Mantle” UI Toolkit (component library) system using TypeScript, React and Styled Components. As a result, multiple teams could make use of reusable components to create visual and functional consistency across products.
- Feature development for Seismic’s “Enablement Planner”. Developed newer components using the above mentioned Mantle components as building blocks and implemented workflows specified in the design system. Utilized Apollo Client and GraphQL to perform queries and mutations on data received from the backend APIs.

- Used AG-Grid Enterprise for displaying multiple list view pages. Created custom cell renderers for asynchronous loading of data and implemented grouping on specific columns and also developed upon other features provided by AG-Grid API.

Frontend Engineer

Percolate Inc.

107 Grand Street, Floor 2, New York, NY, 10013

01/22/2018 – 11/17/2019

- Feature development for Percolate's "Approvals" project making use of TypeScript, React, Redux, GraphQL and LESS styling.
- Developed newer components and applied modern designs for re-theming of the Percolate web application.
- Was part of the team responsible for introducing TypeScript to the codebase.

UI Intern

Percolate Inc.

107 Grand Street, Floor 2, New York, NY, 10013

06/19/2017 to 08/15/2017

- Performed UI enhancements to Percolate web application.
- Refactored existing Backbone components into reusable React components to refine codebase and to implement modern design principles.
- Enhance user accessibility by emphasizing primary interaction and increasing visual contrast for users across the application.

Software Engineer

Osian Infotech Private Ltd

301, Arun Chambers, Next to Tardeo AC Market, Tardeo, Mumbai 400034, Maharashtra, India

07/20/2015 – 08/06/2016

- Spearheaded development on a cross platform application (HIGH for Furtado's School of Music) using React Native.
- Used Redux to manage the state of the application across different screens in the application.
- Implemented navigation-flow from provided mock-ups/designs.
- Successfully integrated REST APIs to fetch/post data from/to backend.

Software Programmer

Zeus Learning

B-1402, Peninsula Business Park, Lower Parel (W), Mumbai 400013, Maharashtra, India

06/16/2014 – 06/30/2015

- Contributed on development towards interactive web-based Mathematics learning applications for Discovery Education.
- Implemented web applications using JavaScript, BackboneJs and HandlebarsJs.
- Used JAWS for testing accessibility features.
- Successfully reviewed and refactored legacy code.

EDUCATION

New Jersey Institute of Technology, Newark, NJ

Master of Science in Computer Science, Sep 2016 – Dec 2017

University of Mumbai, India.

Bachelor of Engineering in Computer Engineering, Aug 2010 - June 2014
